Peter Ove Christensen, Gerald Feltham : Economics of Accounting: Performance Evaluation: 2 (Springer Series in Accounting Scholarship) before purchasing it in order to gage whether or not it would be worth my time, and all praised Economics of Accounting: Performance Evaluation: 2 (Springer Series in Accounting Scholarship):

This book provides an integrated, technical exposition of key concepts in agency theory, with particular emphasis on analyses of the economic consequences of the characteristics of contractible performance measures, such as accounting reports. It provides a succinct source for learning the fundamentals of the economics of incentives. It will appeal to accounting researchers as well as those in other disciplines who are interested in the economics of

management incentives.
